
7. <i>Stellar Atmospheres: Part II</i>	7
7.1 Line Formation and Element Abundances	7
7.2 Ionisation and Scattering	7
7.3 Chemical Composition	7
8. <i>Stellar Models: Part I</i>	8
8.1 Protostar Formation	8
9. <i>Stellar Models: Part II</i>	9
9.1 Solar Energy Requirements	9
9.2 Possible Sources of Energy	9
9.3 Nuclear Fusion: the p-p Chain and the CNO Cycle	9
10. <i>Stellar Models: Part III</i>	10
10.1 The Stellar Interior	10
10.2 Hydrostatic Equilibrium	10
10.3 Central Pressure and Temperature	10
11. <i>Post Main Sequence Evolution</i>	11
11.1 Mass-Luminosity Revisited	11
11.2 Ages of Star Clusters	11
11.3 Low Mass Stars: Red Giants, Supergiants and White Dwarfs	11
11.4 High Mass Stars: Supernovae	11
